Hoang Phuc Phan

Software Engineer - Full-Stack Web and Mobile Developer
Ho Chi Minh City, Vietnam | +84 798 020 513 | phuc20513@gmail.com
Portfolio: hwagfu.dev | GitHub: github.com/JasonP205

PROFESSIONAL SUMMARY

Final-year Computing student at the University of Greenwich Vietnam and freelance web developer who has shipped production applications in React, Next.js, TypeScript, Node.js, Express and MongoDB. Experienced in RESTful API design, real-time systems with Socket.IO, JWT authentication, RBAC and SEO. Seeking a Frontend, Backend or Full-Stack Developer role in Ho Chi Minh City.

WORK EXPERIENCE

TOTDigi - Software Developer

Nov 2026 - Present

- Contribute to and continue developing the company's price management and display system for ESL (Electronic Shelf Label) devices.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, PHP
Frontend: React, Next.js (App Router), React Native, Expo, Vite, Tailwind CSS, shadcn/ui, Zustand, Zod
Backend: Node.js, Express, NestJS, RESTful API, Socket.IO, JWT and refresh sessions, bcrypt
Databases: PostgreSQL, MongoDB (Mongoose), MySQL, SQLite
Tools and Platforms: Git, GitHub, Docker, Vercel, Render, Cloudinary, Postman
Concepts: Real-Time Systems, RBAC, Responsive Design, SEO, Agile/Scrum

PROJECTS AND FREELANCE WORK

Bamboo House - Restaurant Management System | React, TypeScript, Express, MongoDB, Socket.IO

Live: bamboohouse.hwagfu.dev

- Developed a bilingual multi-branch restaurant platform with QR-based ordering at the table and real-time order tracking across branches via Socket.IO.
- Implemented role-based access control, employee management and end-to-end menu and order workflows, with automatic English/Vietnamese translation of food descriptions.

Chap - Real-Time Chat Platform | React 19, TypeScript, Zustand, Express 5, MongoDB, Socket.IO

Live: mojichat.hwagfu.dev

- Built a full-stack messaging app with private and group chats, username search, friend requests, unread counts, online presence and read receipts pushed instantly over Socket.IO.
- Implemented infinite-scroll message history and secured the API with JWT access tokens, database-backed refresh sessions, bcrypt hashing and Cloudinary avatar uploads.

L3GO Coffee - Client Website | Next.js, TypeScript, Design System, SEO

Live: legocoffee.hwagfu.dev

- Delivered a client website for a four-storey coffee shop in Can Tho on Next.js App Router, with a custom design system, light/dark themes, structured data, sitemap and canonical tags.
- Built a 68-item menu filterable by mood, drinking style and budget, with filter state in the query string and per-item URLs so any shared link reopens the exact view.

EDUCATION

University of Greenwich - Vietnam | Ho Chi Minh City, Vietnam

Bachelor of Computing - Software Engineering | Aug 2023 - Present (Final-year student)
Provisional average (to date): 65% | US GPA equiv.: 3.60/4.00
Languages: Vietnamese (Native), English B2 Proficiency (VSTEP), Chinese Basic Level (HSK 2)
